What's New in the Pota Media Library Management?

Pota Library Manager is an award-winning online community that allows your library to communicate with patrons, who become members for free with a library card. Video Library Manager is a powerful and easy to use application that helps you manage all your video collections. You can easily create databases of video libraries and provide access to those libraries. You can create membership classes and manage lots of different video libraries. Video Library Manager makes your life easier. The latest

version of Pota Library Manager allows you to create custom application that runs on the platform of your choice. Create a custom app. Need to add a bar chart? Visual chart designer. Create an app that fits your needs. After creating an app, add it to our library. If you already have an app created for your library, just download the 2-day licence. Installation The application comes with a Client-Server solution. By default, the installation process is client/server. To use the server mode, add one of our servers to the list of servers in the Server list during the installation or run the application as a server after installation. Client and server applications are completely independent. You can download and install the server application and later uninstall it. All you need to do is to download the free Lite version or buy a commercial licence. Lite version (optional) The Lite version is a free, fully functional, stand-alone client application. No Web server is needed to run the Lite version. The installation file is a fully functional program. The Lite version is downloaded and installed on your computer. The program is completely standalone. It can be run on all major platforms. Users You can add one user from the list of available users to the app. Each user has its own library, bills and books. All information about the user that was added to the app is stored in the user's library. The administrator can change the user name and password. The administrator can add and remove groups of users. The admin can set the following options for a user: It can set the days a user can use a library. It can set the maximum size of the user's bills. It can set the default bill type. The home screens can be set for each group of users. Libraries A library can be created for
